

## PMI® PMP® One Day Exam Preparation

1 Day

7 Professional Development Units (PDUs)

*This training provides a complete and fast-paced review of the topics and information you need to know to pass the PMI PMP Certification Exam. Study and practice materials are included.*

### Description

The Project Management Institute (PMI) offers a certification as a Project Management Professional (PMP). Part of becoming certified is passing the PMP Certification Exam. This training prepares participants to take and pass the exam by giving them the information they need to know about the exam itself and identifying what they need to know to pass the exam.

Participants are required to already have a working knowledge of project management processes and tools and should have three years or more experience as a project manager.

The test content topics cover the high level processes of: Initiation, Planning, Executing, Controlling and Closing and the nine Knowledge areas. Participants learn what they need to know in each of the knowledge areas. Participants work individually and in teams while listening to lecture, asking questions, participating in group discussions, completing exercises and taking sample exam questions. Additional study materials are provided to each participant.

### Program Topics

- Information on the Certification Exam
- The PMP application process
- How to prepare for and take the exam
- The 9 PMBOK Knowledge Areas and what you need to know about each one to pass the exam
- Key definitions, terms and what to know to pass the exam
- Study guides and study approach
- Sample questions

### You will learn...

- Detailed information about the exam
- Helpful hints for studying and taking the exam
- The topics you need to study and know to pass the exam
- From PMPs who are project managers with over 20 years experience in project management and project management training
- From PMPs who are highly rated as trainers

### Who Should Attend

This training is for people who wish to prepare for taking and passing the PMI PMP Certification Exam. Participants should read the Project Management Body of Knowledge (PMBOK) before attending this training and meet the work experience requirements for PMP certification.
